

## **ABSTRACT**

**James Shepard-Kegl touched so many lives. He was a brave pioneer. One of his pioneering efforts, which he dedicated much time to, was writing Nicaraguan Sign Language, and because of this, there are now libraries of written literature in Nicaraguan Sign Language. This was never done before in history. James has provided reading materials for Nicaraguan Deaf students for generations to come. A monumental legacy. Thank you, James! In this paper and video, I hope to list the majority of James Shepard-Kegl's publications writing Nicaraguan Sign Language, and to provide links for downloading these publications.**
